Knockree,

I have pleasure in again investing in "Harris'
Preventive Oil for Blackleg." It has proved
most efficacious on my farm here. For many
years my herd of calves were decimated by
this deadly disease whenever I put them on
after-grass, when a friend prevailed on me to
try "Harris' Preventive Oil," and, for the past
three seasons I am thankful to be able to state
that I had not a single instance, although I fed
my calves on what hitherto proved to be the
most dangerous pasture. I can strongly recom-
mend it—I am, &c., G. GRAHAM, J.P.

Do You Need a Holiday?
Two weeks at the seaside or on the hills once a year are a capital tonic—nothing better; but the effects of the best holiday, as you know, do not last over the other fifty weeks. Even a holiday, to be good, must be started right. Change of air is usually preventive of stomachic derangement, and medical men invariably advise a holiday to people "going away." This is to start the holiday right, to permit the new surroundings and fresh air to work their change without hindrance.
BEECHAM'S PILLS
are the best laxative and will make your holiday a real holiday. More, they will keep you "fit" during the other fifty weeks when you are at home, and enable you to "go away" with a clear conscience. The stress of ordinary business life has a very wearing effect on the system, which quickly leads to constipation, and in turn to indigestion, headache, loss of sleep, and general debility. Beecham's Pills, taken at bedtime, will keep the bowels regular, and the system in good health.
